

IRELAND ON A BUDGET

Getting WiFi in Ireland with WiFicandy Updated March 10, 2026

Most people who visit Ireland want to have access to WiFi just like they do at home. Sometimes, the cost may seem prohibitive.

Enter WiFicandy, a business that is based in Ireland and offers a portable WiFi device as well as a competitive eSIM service to its customers. Below you will find additional information.

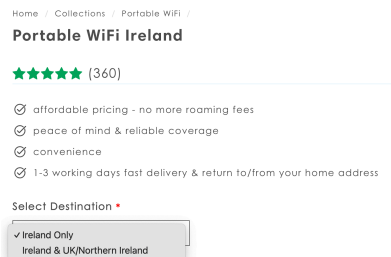

The WiFicandy Portable Device

The portable device covers visitors who are traveling throughout Ireland and the UK (this includes Northern Ireland, Scotland, England and Wales), as well as mainland Europe and now some countries in Asia.

The device offers unlimited high speed 4G data everywhere you go, with unlimited data plans in over 50 countries.

Whether it's sharing moments, using maps, or keeping the kids happy with streaming, WiFicandy makes it stress-free. It's small, portable, and keeps **multiple devices** connected at once — perfect for families on the go.

When ordering on the website, be sure to click on the right destination from the pull-down menu (see screenshot below).

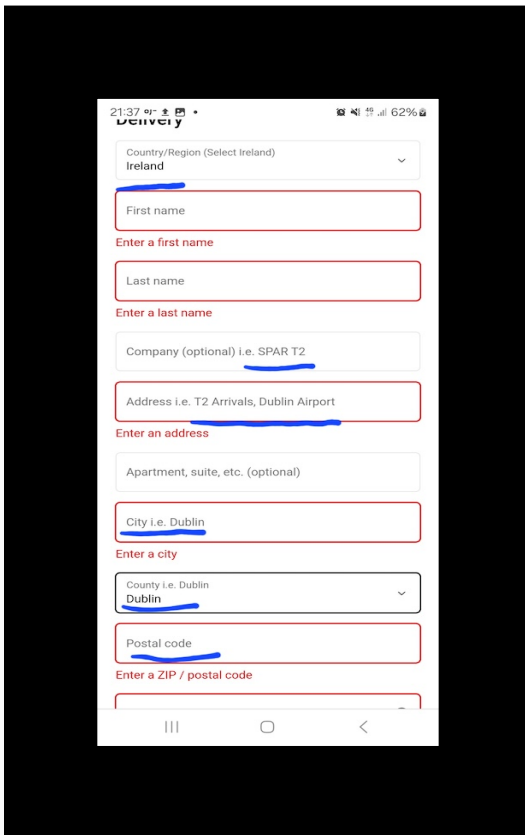

When using the drop-down menu, shown to the left, please be sure to drop down to the specific country that you'll need WiFi coverage for. You can also use it for your travels to other countries in Europe.

When choosing Ireland, there are three options for delivery, including [pick-up at the Spar shop in Terminal 2](#), delivery to an Irish address, including hotels, or delivery to a home address in the

U.S (see more about that below in the section titled "Receiving and Returning the WiFicandy Rental.") The turnaround time for delivery and return by FedEx to the U.S. is 1-3 business days.

If you choose the Dublin Airport option, you must fill in the store address in the Delivery section. The address will be suggested for you. In this case, it is the Spar store in Terminal 2 that you will be collecting the device from. The Spar address is Spar Store, Terminal 2, Arrivals Hall, Dublin Airport K67 AOK7. See screenshot below.

Take 10% off your WiFicandy order with Code IOB10. Order [here](#).

What are the Benefits of Using the WiFicandy Portable Device Instead of International Roaming?

- **Convenience** – just turn it on and connect! No SIM card swapping or technical set-up required.
- **Value for Money** – Connect multiple devices simultaneously and avoid high international roaming fees.
- **Reliability** – High speed data and network coverage in up to 50 countries for the portable WiFi and +130 countries for the eSIM.
- **Booking Calendar Open 365 Days in Advance** – if you avail of the New Year sale above, you can buy and use a year from now.
- **Perfect for Everyone**, including business travelers, families, couples and solo travelers.

- **Gift Cards Available** - with no expiration date, redeemable on WiFi rentals or eSIMS whenever traveling! Purchase one [here](#).

The Cost of Renting a WiFicandy Portable Device

For Ireland Only

€11 per day for 3-7 days
€9.90 per day for 8-14 days
€8 per day for 15-20 days
€7 per day for 21+ days

Ireland & UK or EUROPE

€13 per day for 3-5 days
€11 per day for 6-8 days
€9.90 per day for 9-19 days
€9 per day for 20-30 days
€8 per day for 31+ days

In addition, the device can also be used in a [whole host of countries](#) around the world. Please check the WiFicandy website for specific costs related to countries outside of Ireland and the UK.

Powercandy Add-on and Product Protection

The Powercandy* is a power back up add-on that you can rent along with the portable WiFi device. It comes with a 20,000 mAh powerbank, a car charger, a universal travel adapter and a USB cable. The additional cost is €25.10 for the entire length of your rental.

If you plan to stay outdoors for more than 8 hours at a stretch, this is a must have.

Optional Product Protection

This covers you against loss, theft or physical damage to the portable device. The cost is an additional €18, which is non-refundable.

Receiving and Returning the WiFicandy Rental

For convenience and as an additional service to future and returning customers, WiFicandy now ships the device to home addresses and customers via Fedex. Once you have used the device, you can mail it back in a special package provided by WiFicandy.

The shipping and return costs have been reduced from €45 to €30 for customers who are hoping to use the portable device while in Ireland or anywhere else in Europe.

The Convenience of Returning the WiFicandy Device When Leaving Ireland

A prepaid package is provided with each order. Once you are finished with the device, simply pack everything up, drop it in the bag and put it into the green postboxes in Dublin Airport's

Terminal 2, or in the green postbox in Shannon Airport, or anywhere you see an official post office box around Ireland.

If you are picking up and dropping off the portable device, a fee of €12 will be added to your order.

Here are some video links to the green post office box locations in Dublin and Shannon airports or anywhere in Ireland.

The WiFicandy eSIM Service

[The WiFicandy eSIM service](#) offers flexible data plans as per your individual needs. The company offers the best available network wherever you happen to be, serving 130+ countries.

The WiFicandy eSIM is a 100% digital product, so no logistics are involved. You can choose a country/region and the data plan that suits your needs.

You will be notified by email of your purchase, with the necessary instructions for easy installation. If you run out of data, you can purchase an additional plan that is dependent on your needs.

What are the Benefits of Using WiFicandy's eSIM Service?

Unlimited Data eSIM (Ireland, UK, Europe)

- Offers unlimited 5G eSIM with a local Irish phone number (this is a non-refundable eSIM package, so once activated, the company cannot issue a refund if you come back after purchasing to say that your phone is not compatible. Please make sure it is beforehand). However, once installed on your phone, you can make local calls (phone calls to attractions, hotels, B&B, etc.) on any network in Ireland and the UK. No need for a country code since the calls you make will be coming from a local phone number, not a US or any other foreign phone number.
- Instant activation

Global eSIM (130 Countries)

- Instant delivery

- Ideal for travelers heading anywhere in Europe or beyond
